Choose the right PR Embroidery Machine for you

Brother offers two PR-Series Embroidery Machines - the PR1000e and PR655c.

**PR Entrepreneur Pro PR1000e**

The PR1000e incorporates many new features which work together to enhance your productivity. 10 needles for a wider range of colours, extra large embroidery area and positioning sensor all combine to offer increased versatility.

The compact design is ideal for small work shops or the home, and is portable enough to be moved for use at events. A wide variety of accessories give the flexibility to embroider a huge range of items.

By activating the scanning function*, you are able to scan in the item on which you want to embroider, and accurately and precisely place your design. Or if you want to join continuous borders, the camera is a very useful tool in doing so with minimum fuss.

**Key Features**

- Up to 1000 stitches per minute (variable speed)
- Large embroidery area
- Large colour LCD touchscreen
- Exclusive automatic needle threader
- USB ports (2 host, 1 slave)
- Automatic thread trimmers
- Customise designs on screen
- Individual stitch back up
- Appliqué function
- Single-colour sewing without interruption
- Cylinder arm
- Link capability (*needs PE-DESIGN 10 Software)
- Group/Ungroup
- Forward/Reverse
- Advanced natural lighting
- Frame sensors

---

**Entrepreneur PR655C**

The 6-needle PR655C is an ideal starter for a home embroidery business.

The wide-angle HD LCD display offers vivid, crystal-clear clarity, rendering the brightest images imaginable. See high resolution design previews almost instantly. The new brightness adjustment feature allows you to change the screen brightness to suit your environment.

The PR655c incorporates all the user friendly features you’d expect to find in any of the Brother home embroidery machine range, together with the speed and finish of a commercial model, making it ideal for those thinking of starting a home based embroidery business.

**Key Features**

- Up to 1000 stitches per minute (variable speed)
