PR1000e
Embroidery machine

The PR1000e is the ideal machine to take your home/business embroidery to the next level. It incorporates many new features which work together to enhance your productivity.
It offers 10 needles for a wider range of colours, an extra large embroidery area, with easy to use embroidery positioning camera sensor, and a powerful, yet effortlessly simple, touch screen control system with built-in editing and design preview functions.
Camera positioning sensor
The built-in camera sensor makes it easy to position the embroidery exactly where needed.

28 built-in fonts and 110 designs
A wide range of built-in lettering styles and embroidery designs.

Large embroidery area
(360mm x 200mm)
The PR1000e's extra large embroidery area and range of included frames gives you the flexibility to work with a huge range of projects from jackets and t-shirts to socks and baby clothes.

10 needles
Embroider multi-coloured designs quickly and easily. Upper and lower thread trimmers eliminate time-consuming trimming when the embroidery is complete.

Smart, compact 10 needle embroidery machine

New ASV LCD touch screen control
The wide angle HD touch screen displays bright, crystal clear images. Adjustable brightness and super fast processing means design edits and previews are shown immediately, saving you time.
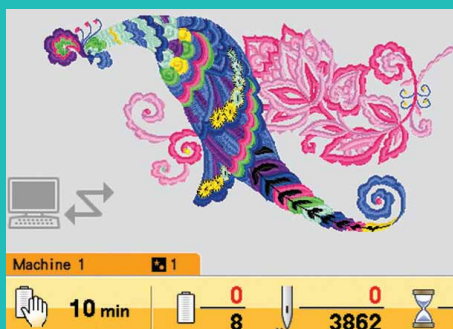

Thread stand with LED guide lights
Multi-coloured LED lights help to: show the position of broken threads; show the position when a thread needs changing; and show the position thread for each colour used.
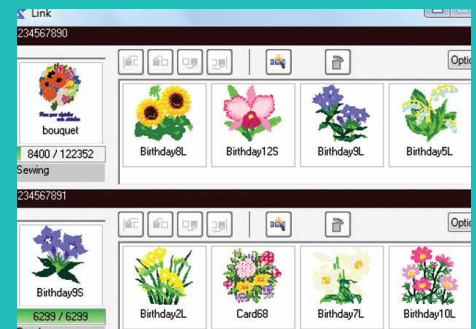

Flexible threading system
Easy threading prevents thread tangles and knots and provides stable thread tension.

Link up to 4 machines via a single PC
With the new PE-Design Next software, it's possible to link up to 4 machines via a single PC to give enhanced productivity.

Link capability
Send designs to multiple machines. Queue name changes with the new name drop feature. Ideal when making personalised items such as team shirts.
A reliable
and easy-to-use
solution for all your
embroidery needs

Table to support extra large projects

Includes a table to support large and heavy projects, such as blankets and jackets etc. Also supports the optional jumbo and border frames.
Adjustable LED lighting system

The built-in LED natural lighting system provides effective, adjustable light for the work area.
Cylinder arm

The cylinder arm makes it easy to embroider caps, tote bags, sleeves, trousers, etc.

Embroidery frames

4 different size frames are supplied:
Extra large 360 x 200mm
Large 180 x 130mm
Medium 100 x 100mm
Small 60 x 40mm

Automatic needle threading

Simply press the automatic needle threading button and the upper thread will pass through the needle. It couldn't be simpler.

Customise designs on screen

Powerful editing functions include arranging text, pattern rotation in 1 degree increments, design size change and the ability to combine designs and add lettering too.

Thread change

The PR1000e will display the length of time before the next thread change is needed.

Variable speed: 400 to 1,000 stitches per minute

Select the best embroidery speed for your project, or individual needles can be set at different speeds to suit specialist threads.

Advanced features for extra versatility

+/- 1000 stitch step back/forward using the camera sensor allows you to go back over part of a design.

Dual mode colour sequence for DST/PES

The PR1000e supports the dual colour sequence function found on many industrial machines.

Appliqué function

Create appliqués with this useful built-in function, perfect for badges and medallions.

Single colour embroidery

Converts multi-coloured designs to single colour, quickly and simply, saving you time.

Create impact with even bigger embroidery designs

Optional accessories

PR stand
This mobile stand securely holds PR series machines and provides ample storage for accessories and threads.

Clamp frame kits
The clamp frame kits are ideal for adding embroidery to shoes, inner jacket pockets, cuffs, gloves and much more.

Clamp frame size 45 x 24 mm

Cylinder frame
Embroider virtually anything that's cylindrical. Cylinder frame 90 mm wide and 80 mm high. Material should have a minimum of 100 mm open diameter.

Border frame 300 x 100 mm
Embroider beautiful continuous designs and borders. Ideal for a wide range of projects from fashion to furnishings. The usage of the wide table is recommended.

Round frame kit
The round frame kit includes 3 frames:

• Small 100 mm
• Medium 130 mm
• Large 160 mm

Quilt frame 200 x 200 mm
Designed to fit traditional quilting squares. Must be used with Arm B embroidery frame holder and the usage of the wide table is recommended.

Flat frame
Jackets and other thicker materials are easily embroidered on the flat frame, which measures 300 x 200 mm.

Jumbo Frame 360 x 360mm
Embroider extra large designs with ease. Simply embroider the first half of the design and turn the hoop 180 degrees. The camera sensor function will position the frame ready to embroider the 2nd half of the design.
PE-Design Software
Brother's family of embroidery design software, PE-Design Next and PE-Design Plus offers powerful features to suit beginners and professionals alike.

PR cutwork kit
Embroider and cut - without having to change needles in between. Giving you the ability to create and customise beautiful embroidery cutwork.

PR Upgrade kit
Image scan function for easy placement of embroidery on specific areas, Pattern connection by camera for continuous or large embroideries, Color shuffling, 2 extra fonts and 10 embroidery designs.
